About This Game

The small town is a very important town indeed. Here, a unique industrial complex is located. Rumor has it that it does not require energy for production, because that is e 5d3b920ae0

Nice little (short) game with sensible puzzles and good hint system. Some of the objects are a littll;e hard to see though. Last puzzle is a bit annoying. Enjoyable, approx. 4 hours.. I have played several hidden object games and this one is great, didnt read the description before playing and the art is amazing and was trying to figure out what kind of games it was, it was a surprise that it was a hidden object game, the sound track, the art and the navigations is really fast, the fastest that i have seen in games like this one, it has different dialogs when you are wrong What i didn't like is that i got lost at a point the clue wasn't that of a help, but manage to got it. other than that the history is good, intriguing, again the art is great hope the background and emotes

have this art.. I was given this game for review purposes. It's a great game with a lot of potential. The storyline is fascinating, the puzzles are the appropriate level of difficulty and it breaks away from your standard hidden object feel. They don't have a panel where you have to find unrelated things to the game (i.e. find 10 umbrellas so you can get 1 screw type thing). I would classify it as a puzzle-novel with a hidden object feel. In any case, it's a nice little game and you should give it a try! Pros: -Good voice acting -Nice music -Beautiful artwork -Intriguing story -Fun puzzles Cons: -The "hints" might not be helpful at times -Some puzzles are not explained well -The lack of a Journal or some type of Document of clues you find (i.e. number combinations used later) can be a little frustrating at times. Mehs: -Kind of short Overall, I'd give it a 8.75/10. This game is really great. Except end. Finale of this game is totally frustrating.. I just could not get into this game - the game play did not really have the Hidden objects part down pat - it is difficult to understand what you require and the Help is not really helpfull - I actually found the clues to be clueless and therefore will not be able to rate this game in a positive light. Good luck to other people who might want to play this.
